

2.5 Services

1. Go to **Store setup ? Services** and click **New service**.
2. Fill in:
 - **Name** and **description**.
 - **Duration** (minutes) — how much room the service takes in the agenda and the possible times.
 - **Price**.
 - **Color** — used to identify the service in the agenda (pick a gradient).
3. **Groups (optional)**: create groups (e.g. "Hair", "Beard") and assign services; drag by the handle to **reorder** services and groups. Groups show as headers in the public booking and the backoffice selectors.
4. Save. You can mark a service **inactive** to hide it without deleting it.

“ ?  — Grouped services with colors, duration and price, and the "New service" button. Services

“ ?  — Editing a service (duration, price, color, group). Edit service

“ ? **Scenario (clinic)**: create "Consultation" (30 min), "Physiotherapy" (45 min), "Nutrition" (30 min). Different durations make each service take the right space in the agenda.
