

5.1 View and manage customers

1. The list shows name, contact, number of appointments and last visit, with **search**, **sorting**, **store filter** and pagination.
2. **New customer**: click **New** and fill in name + phone and/or email (at least one) and optionally the address.
3. **Edit/Delete**: via the buttons on the customer's row.

A customer is **created automatically** whenever you save an appointment with a phone/email.
